Variety of Media

About

• As an artist, I enjoy working with a variety of mediums. It's so much fun thinking of ways I can make art that will be used in my clients daily life. From enjoying their morning coffee on coasters made from their wedding bouquet or favorite Magic the Gathering cards to watering a succulent they're growing in one of my goofy eyebrow/mustache plant pots. The possibilities are endless!

Artist Statement

I love creating functional art! A few examples: Preserving wedding bouquets or my paintings of the northern lights into coasters, turning my oil & watercolor landscapes & portraits into magnets, postcards, stickers, etc.
