

Karylynn Keppol

Variety of Media

About

• Karylynn is an Illustrator & Artist from the Oregon Coast, currently living in Seattle with her Rocket Scientist partner and a goblin puppy. She works full time as an artist from her home studio. In 2023 she spent the year creating a series of 100 acrylic paintings of clouds, which resulted in her first solo show at Mindpower Gallery.

She also recently finished Illustrating a children's book that should be released in 2025. This year she is busy building her new life in Seattle, working on a body of products for wholesale, and practicing plein air painting.

Artist Statement

My work is inspired by my adventures in the Pacific Northwest, drawing from my personal experiences exploring its forests, mountains, and coastlines.

With my background in illustration, I'm interested in narratives and how viewers will see different stories in the same picture. My paintings transform my own everyday moments into enchanted scenes, and bring to life a cast of characters on imaginative journeys. I'm just trying to share some extra magic in this already magical world.

I have also been known to build monsters from the hoard of cereal boxes in my coat closet.
