

**Blossom Appel**  
Variety of Media

**About**

- I have a Bachelor of Fine Arts from Columbia College in Chicago. I've organized and participated in local poetry and performance events over the years.

I hold a Master of Art in Art Therapy/Counseling from Marylhurst University and professionally concentrate in this field in my own practice.

I am locally represented through Serene Abundance Studio Space.

**Artist Statement**

My art is an ever-evolving intuitive exploration and celebration of creative media. I have been working with a variety of media and forms of expression from an early age, including painting, drawing, creative writing, photography, modern dance/authentic movement, and performance. Painting, drawing, mixed media and fiber arts are my long term passions. My creative practice nourishes, sustains, challenges, enriches and delights me in ways nothing else can. My current studies in contemporary Visionary Arts help uplevel my skills and make manifest inspiration and awe. I hope my viewers may also benefit from this visual and tactile banquet.
